

Accounts Receivable & Debt Management Policy & Procedure

Purpose

Establish a standard operating procedure for accounts receivable and debt management using Nookal Practice Management Software across the Healthia Allied Health Network for debt to be collected in the most effective manner that debt does not become mismanaged.

Objective

Private Clients should be collected at the time of invoice or within 7 days if unable to pay on the spot. Accounts should not be offered to **Private Clients**.

Private Entities (Corporate or Businesses that we supply services) should be collected **within 30 days**.

Third Party Payers (DVA, Medicare, NDIS, Plan Managers, Insurance schemes etc) should be aimed to be collected **within 60 days** if unable to be submitted via online payment portals.

Minimal debt should be over 60 days with the aim for **nil debt over 90 days**.

Roles & Responsibilities

All Admin Support Team

- Generation of Private & Third Party Payer invoices at time-of-service delivery.
- Processing and collection of payment for Private clients on the spot.
- Submission of invoices in Nookal via HICAPS Digital or Tyro Health.
- If submission is not available as above then email invoice through Nookal at time-of-service.
- Monitoring and processing of accounts receivable through bank transactions and remittance advice from debtor so that ageing debts are best managed.

Trained Admin Support Team and/or Practice Manager

- Monitoring and follow-up of ageing debts to recover debt owed to the clinic.

- Reporting debt management process and recommendations to Clinic Partner(s) or Team Leaders and Regional Partners on a regular basis.

Clinic Partner(s) or Team Leaders and Regional Partners

- Monitor ageing debts and recommendations from Senior Admin Support Team / Practice Manager and escalate any unrecoverable debt to Regional Partners.
- Responsibility for invoicing, accounts receivable and debt management lies at the clinic level with the Practice Manager & Clinic Partner or Team Leader. Accounts receivable and debt management is a key performance indicator for each clinic.
- The management of ageing debts and recovery of debt will influence future revenue reporting and impact P&Ls if mismanaged in regard to invoice adjustments and write-off of unrecoverable debt.

Accounts Receivable

There should be a primary person nominated to the role, either a Practice Manager or Senior Admin Support team member however it is best to have multiple team members involved in the process of accounts receivable to ensure that remittances are receipted in a timely manner to ensure that ageing debts are accurate, up to date and the clinic bank account being reconciliated on a daily basis. If the primary person is on planned or unplanned leave this role needs to be delegated to ensure that accounts receivable and debts are kept up to date.

Daily Bank Account Reconciliation & Remittances

Step 1 - Bank Account Transactions

Login to clinic bank account & download bank transactions.

Step 2 - Reconciliation, Remittances & Receipting

Check HICAPS / EFTPOS deposits with settlement slips from previous end of day reconciliation.

Check other deposits with remittances received via email, post or payment platforms via Nookal and other portals.

Receipt payments in Nookal or other Practice Management Software. Date the payment as the day receipted in Nookal rather than the day received in the bank account.

Place a note in the reference “*received in bank insert date*” next to the bank transfer amount if there is a delay with the daily bank reconciliation.

Tip: Either highlight or delete transaction from the downloaded bank transaction spreadsheet once deposit has been reconciled / receipted or make any notes for unreconciled transactions to keep a track on progress especially if there are several transactions to reconcile.

Step 3 - Adjustments

If any adjustments need to be made to an invoice due to errors in amounts invoiced and received, please follow the steps in Nookal Invoice Adjustments Guide.

Step 4 - Unreconciled Transactions & Inter Clinic Transfer

Complete an Inter Clinic Transfer for monies received that do not relate to in your clinic.

Please reach out to your Finance/Operations Business Partner if you cannot identify the deposit and request the Inter Clinic Transfer Form.

Step 5 - Banking Report in Nookal

Run a Banking Report in Nookal once all deposits have been reconciled to check that bank transfer amounts total in the bank match the Nookal Banking Report for the day.

Note: Depending on how you claim Medicare/DVA/NDIS this might mean that a combined total of Bank Transfer, NDIS Funded, Public Health & DVA will match the total amounts in the bank account.

Ageing Debt Management

Accurate reporting, reconciliation and follow-up of ageing debts are key to the ongoing viability of any business in particular our clinics and the entire Healthia network.

It is important from invoice generation, to bank reconciliation/receipting in Nookal, to the follow-up of ageing debtors. For each clinic/bank account there should be a primary person nominated to the role, either a Practice Manager, Senior Admin Support Team Member and/or Clinic Partner, however it is best to have multiple team members involved in the process of monitoring and following up of ageing debts to

ensure accuracy of debt reported in each clinic. If the primary person is on planned or unplanned leave this role needs to be delegated to ensure that debt management is kept up to date.

Overview

Step 1 - 0 to 30 Day Ageing Debts

Check Rejections

Prompt follow-up of rejected claims via Integrated Payment Portals in Nookal.

Private Clients

Follow-up of Private Client via phone call and email within 48 hours from appointment if payment has still not been received, with follow-up reminders in Nookal.

Step 2 - 31 to 60 Day Ageing Debts

Follow-up of Private Entities/Third Party Payers via phone call and email with reminders in Nookal.

Step 3 - 61 to 90 Day Ageing Debts

Further follow-up via phone call and email with FINAL NOTICE.

Step 4 - 90+ Day Ageing Debtors

Last follow-up of via phone call and email with FINAL NOTICE.

Step 5 - Unrecoverable Debt

If debt has become unrecoverable whereby there is a high risk of non-payment, then follow Doubtful Debt Write Off Procedure.

Nookal Ageing Debts Report

Generate an Ageing Debts Report from the "Reports" tab by selecting "Ageing Debts".

Filters and Options

Filters	Description
Date*	Filters based on items invoiced date - regardless of the invoice date. *We highly recommend keeping the date range as "10 Years" to generate accurate and current debtors data.
Location	Invoice location - regardless of the payment location. This is useful when you have multiple sites and you're able to split the report to focus on one location.
Providers	Select a specific Provider to easily find unpaid items attributed to

	this Provider OR select all Providers for full report.
Filters v Show Expanded	Tick Show Expanded so that each invoice will be shown in a separate row for easy access to the invoice by clicking on invoice number.
Payers	Select specific Payers to generate debt amount for that Payer or select all Payers for full report.
Sort	Sort the list by Clients or Type to group Invoices by Client or Type.
Services / Classes / Inventory / Passes / Other	Include all Services, Classes, Inventory, Passes and Other items to ensure all are captured in the Ageing Debtors Report.

Tips & Tricks

- Expanded details filter offers a report itemised by each invoice rather than grouping either by type or client.
 - Export report to a XLSX file so that you can reference the information on the spreadsheet whilst working through debtors within Nookal as well as make notes on the spreadsheet to track actions with debtors.
- Note:** XLSX file has 2 tabs of information – Parameters & Details. CSV files do not save information that you have added after export. If you export as CSV then save as XLSX file before editing data.
- In Nookal, click on the invoice reference, this will bring up the invoice where you can either process the invoice, check the online portal for remittance or rejection or email the invoice again for follow-up.

Nookal HICAPS Report

The HICAPS Report lists invoices submitted for automated payment via HICAPS Digital Claims Integration. It will show you claim statuses and error responses, including rejected claims.

Generate this report to reconcile submissions sent through the integration and to evaluate recurring issues and error messages to rectify rejected claims.

Filters and Options

Filters	Description
---------	-------------

Date	Date of the last transmission with HICAPS Digital Claims (Claim submitted, approved or rejected).
Statuses	Claim statuses to include in the Report.

Ageing Debts Process

Run an Ageing Debts Report, either download the report to work through the following steps or use within Nookal.

Step 1 - 0 to 30 Day Ageing Debtors

Check Rejections

It is important to check for any rejected claims in a timely manner so a claim can be re-submitted or any issues addressed for the invoice to be paid. In some cases, a rejected claim may fall to the client for payment. It is important that we do not have multiple unpaid services for the same client as this may result in larger unrecoverable debt if left unaddressed.

You can check for rejections either via the online payment portal websites, online claiming reports in Nookal such as the HICAPS Report or via the Ageing Debts Report.

Resubmit claims via Nookal by either processing again through HICAPS Digital / Tyro or Email

Private Clients

Unfortunately, sometimes clients may have an issue when returning to reception to finalise payment. Print out the invoice for the client and send it by email via Nookal.

We may offer either payment via bank transfer which the client may be able to attend to in the waiting area with the bank details at the bottom of the printed invoice or by calling the clinic to arrange payment via phone or returning to the clinic in the coming days to settle the invoice.

If payment has not been received prior to the client leaving the clinic then place an alert note on their profile "OUTSTANDING DEBT". This will help alert other admin team members if the client calls to cancel their next appointment.

It is important to follow-up by phone, SMS and email these clients within 48 hours of their appointment if payment has not been received. Set reminders in Nookal, it is important to follow-up prior to the next appointment rather than waiting to next appointment to obtain payment as the client may not attend or cancel and refuse paying.

Call client to follow-up payment

If no answer, leave voice message and send SMS follow-up via Nookal

Email client with 0-30 Day Follow-up & invoice

See email templates below

Step 2 - 31 to 60 Days Ageing Debtors

Private Ageing Debtors in 31 to 60 Days

Follow-up with a call to the client or entity to discuss payment and take payment over the phone

Send payment follow-up and invoice via email or SMS

Add Private Note on invoice with follow-up actions

Place ALERT note on client file "OUTSTANDING DEBT"

Third Party Ageing Debtors in 31 to 60 Days

Review claim details and digital payment platforms or Third Party portals to check status and follow-up.

Call Third Party Payer to ensure invoice has been received and determine payment timeframe

Send follow-up via email with invoice to Third Party Payer asking for payment or remittance

Add Private Note on invoice with follow-up actions

Step 3 - 61 to 90 Days Ageing Debtors

Private Ageing Debtors in 61 to 90 Days

Follow-up with a call to the client or entity to discuss payment and take payment over the phone

Send final payment follow-up and invoice via email or SMS

Add Private Note on invoice with follow-up actions

Ensure an ALERT note is on the clients file "OUTSTANDING DEBT"

Third Party Ageing Debtors in 61 to 90 Days

Review claim details and digital payment platforms or Third Party portals to check status and follow-up

Call Third Party to ensure invoice has been received and determine payment timeframe. Ask whether there is any reason for the delay and whether anything further is required. If nothing is outstanding from the clinic then flag with the payer that the client's treatment may be delayed affecting outcomes for the client due to invoices being outstanding.

Send follow-up via email with invoice to Third Party Payer asking for payment or remittance

Add Private Note on invoice with follow-up actions

Place ALERT note on client file "OUTSTANDING THIRD PARTY DEBT"

Step 4 - 90+ Days Ageing Debtors

Private & Third Party Ageing Debtors in 90+ Days

Determine if debt is recoverable or not. If recoverable, follow above steps in step 3

If unrecoverable, determine next actions with Clinic Partner & Regional Partner in step 5.

Step 5 - Unrecoverable Debt

If Debtor has become unrecoverable, then follow Doubtful Debt Write Off Procedure.

E-mail Templates

Reminder (0-30 Days):

Subject: Reminder - Outstanding Invoice

Dear [Patient's Name],

Reminder - Outstanding Invoice

We write to you to advise you that our records indicate the attached invoice is outstanding and now overdue.

Payment can be made:

- In person by visiting the clinic,
- Via debt or credit card over the phone, or
- Via bank transfer to the bank account detailed on the invoice (please use invoice number as a reference)

Should you be unable to make full payment, please contact the clinic to discuss an alternative payment arrangement.

If the attached invoice has already been paid, or if you believe the invoice is not correct, please contact the clinic or email confirmation of those details so the payment can be allocated against the invoice.

Thank you for your attention.

Best regards,

[Clinic Name]

Further Reminder (30-60 Days):

Subject: Reminder - Outstanding Invoice

Dear [Patient's Name],

Reminder - Outstanding Invoice

Further to our previous correspondence, the attached invoice remains outstanding and is now further overdue.

Payment can be made:

- In person by visiting the clinic,
- Via debt or credit card over the phone, or
- Via bank transfer to the bank account detailed on the invoice (please use invoice number as a reference)

Should you be unable to make full payment, please contact the clinic to discuss an alternative payment arrangement.

If the attached invoice has already been paid, or if you believe the invoice is not correct, please contact the clinic or email confirmation of those details so the payment can be allocated against the invoice.

We appreciate your promptness in addressing this outstanding invoice.

Thank you for your attention.

Best regards,

[Clinic Name]

Final Notice Reminder (61-90 & 90+ Days):

Subject: Final Notice - Outstanding Invoice

Dear [Patient's Name],

FINAL NOTICE - Outstanding Invoice Further to our previous correspondence, the attached invoice remains outstanding and is now significantly overdue.

Payment can be made:

- In person by visiting the clinic,
- Via debt or credit card over the phone, or
- Via bank transfer to the bank account detailed on the invoice (please use invoice number as a reference)

Should you be unable to make full payment, please contact the clinic to discuss an alternative payment arrangement. If this invoice remains outstanding more formal debt recovery steps may be taken, including referral to a debt collection agency.

If the attached invoice has already been paid, or if you believe the invoice is not correct, please contact the clinic or email confirmation of those details so the

payment can be allocated against the invoice.

We appreciate your promptness in addressing this outstanding invoice.

Thank you for your attention.

Best regards,

[Clinic Name]

Doubtful Debtors Write Off Procedure

Purpose

Establish a standard operating procedure to write off Doubtful Debtors after multiple attempts to recover outstanding debt.

Objective

To ensure that Doubtful Debtors are dealt with in a timely manner so the accuracy of overall debt at clinic level is reflected of true recoverable debt.

Overall objective is to have minimal Doubtful Debtors as improved procedures from the outset will minimise the requirement of Doubtful Debtor Write Offs.

Roles & Responsibilities

Trained Admin Support Team and/or Practice Manager

- Reporting Doubtful Debtors that are deemed unrecoverable to Clinic Partner(s) or Team Leaders & Regional Partners on a monthly basis to determine next actions
- Approval will need to be obtained from all Partners before any write off can be processed

Clinic Partner(s) or Team Leaders and Regional Partners

- Determination of reported Doubtful Debtors with action to write off debt will reduce the current revenue reporting period thus impacting the P&L, EBITDA & resulting dividends.
- Approval will be required by all Partners before Doubtful Debt Write Off procedure can be processed in Nookal.
- Responsibility for invoicing, accounts receivable & debt management lies at the clinic level with the Practice Manager & Clinic Partner or Team Leader. Accounts receivable & Debtor management is a key performance indicator for each clinic.

Criteria

- Debtor invoice(s) overdue by more than 90-120 days from unresponsive Debtor despite repeated efforts to recover outstanding debt.
- Unlikely to recovery debt from a debt collection company.
- If a Third Party Payer has determined that the invoice doesn't meet requirements of the claim or service agreement & the invoice will not be accepted for payment.
- Clinic must be profitable for Doubtful Debt Write Off.

Timeline

Monthly submission of Doubtful Debt Write Off's to Regional Partner

Process

Step 1 - Generate Ageing Debts Report / Identify Doubtful Debtors

Clinic downloads an Ageing Debts Report and identifies Doubtful Debtors in 90+ Day Column

Once Doubtful Debtors are identified clinic to SAVE AS "*Doubtful Debtors - COST CODE - MONTH*" Eg *Doubtful Debtors - 1000 - MAY* . XLSX file type

Step 2 - Approval

Send file to Clinic Partner/Team Leader for review and approval.

Once Clinic Partner/Team Leader approvals they forward onto Regional Partner for review and approval.

If total value of Doubtful Debtors is under \$1,000 then the Regional Partner can approve.

If total value of Doubtful Debtors is over \$1,000 but less than \$5,000 then General Manager approval is required.

If total value of Doubtful Debtors is over \$5,000 then the CFO needs to approve.

Step 3 - Write Off in Nookal

Once approval is obtained by Regional Partner and/or General Manager then clinic can proceed to complete write-off.

Open Invoice => Click on item => Adjust Total => Enter \$0 => Reason "WRITE OFF" => SAVE

Nookal Invoice Adjustment Parameters

Lock Period = One Business Day

After One Business Day adjustments will be possible however backdating & voiding will not

Invoices from Friday, Saturday & Sunday will not be able to be backdated or voided after 11:59pm on Monday night.

After One Business Day....

Able to change PAYER, CASE & ADDRESSEE

The Payer, Case & Addressee will be changeable as these won't change revenue figures.

Able to change CODE & EDIT Description

The Code & Description will be able to be changed as this won't change revenue figures.

Able to change TOTAL

The line-item total (price) will be able to be changed but not backdated.

Able to change Payment METHOD

The payment method will be able to be changed but not backdated.

Unable to ADD services, classes & late items

This would increase the clinic & clinician revenue for a prior revenue period

Unable to VOID Invoice

This would decrease the clinic & clinician revenue for a prior revenue period

Unable to BACKDATE Invoice & Changes

This would change the clinic & clinician revenue for a prior revenue period

Unable to Change Provider

This would change the clinician’s revenue for a prior revenue period altering provider activity reports

Nookal Invoice Adjustments

Able to change PAYER, CASE & ADDRESSEE

The Payer, Case & Addressee will be changeable as these won’t change revenue figures.

- Click on the Payer or Case Name or Addressee (click on the text, **don’t** click on the little pencil),
a pop-up box will appear so that you can change what is required.

Further Assistance

If an adjustment is required and can't be made with the above, then a Ticket will need to be submitted via ASSIST (Category = Nookal: Invoice Amendments).

Please include the Invoice Number and details that you require to be changed.

If revenue is backdated outside of the revenue period then Finance will need to review the ticket to ensure clinic and clinician billings incentives are correct.
