

# Accounts Receivable and Debt Management Procedure

## Why we do things

Healthia is committed to implementing best practices for the timely payments of invoices. This Procedure sets out operational steps for daily reconciliation, receipting and ageing debt.

## Who this Procedure applies to

Healthia's Accounts Receivable and Debt Management Procedure applies to all clinics across the Healthia network. The procedure applies when team members are on Healthia premises or performing work for Healthia away from the workplace.

## Our Procedure

### 1. Accounts Receivable - Responsibilities

Each clinic should nominate a primary person for accounts receivable, usually a Practice Manager or Senior Admin Support Team member. Clinics should involve multiple trained team members so that remittances are receipted in a timely manner, ageing debt remains accurate, and bank reconciliation continues during planned or unplanned leave.

### 2. Daily Bank Account Reconciliation and Remittances Procedure

#### Step 1 - Bank Account Transactions

- Login to clinic bank account and download bank transactions.

#### Step 2 - Reconciliation, Remittances and Receipting

- Check HICAPS / EFTPOS deposits with settlement slips from previous end of day reconciliation.
- Check other deposits with remittances received via email, post or payment platforms via Nookal and other portals.
- Receipt payments in Nookal or other Practice Management Software (PMS). Date the payment as the day receipted in Nookal/PMS rather than the day received in the bank account.
- Place a note in the reference "received in bank insert date" next to the bank transfer amount if there is a delay with the daily bank reconciliation.
- Tip: Either highlight or delete transaction from the downloaded bank transaction spreadsheet once deposit has been reconciled / receipted or make any notes for unreconciled transactions to keep track on progress, especially if there are several transactions to reconcile.

#### Step 3 - Adjustments

- If any adjustments need to be made to an invoice due to errors in amounts invoiced and received, please follow the steps in Nookal Invoice Adjustments Guide.

#### Step 4 - Unreconciled Transactions and Inter Clinic Transfer

- Complete an Inter Clinic Transfer for monies received that do not relate to your clinic.
- Please reach out to your Finance/Operations Business Partner if you cannot identify the deposit and request the Inter Clinic Transfer Form.

#### Step 5 - Banking Report in Nookal

- Run a Banking Report in Nookal/PMS once all deposits have been reconciled to check that bank transfer amounts total in the bank match the Nookal/PMS Banking Report for the day.
- Note: Depending on how you claim Medicare/DVA/NDIS this might mean that a combined total of Bank Transfer, NDIS Funded, Public Health and DVA will match the total amounts in the bank account.

### 3. Ageing Debt Management Procedure

Accurate reporting, reconciliation and follow-up of ageing debts are key to the ongoing viability of our clinics and the wider Healthia network. This spans the full debtor lifecycle in Nookal/PMS - from invoice generation, through bank reconciliation and receipting, to the timely follow-up of ageing debtors.

Each clinic/bank account must have a primary person nominated to own debtor management - either a Practice Manager, Senior Admin team member or Clinic Partner. Multiple team members should still be involved in monitoring and following up ageing debts, to support accuracy of debt reporting at each clinic. Where the primary person is on planned or unplanned leave, this responsibility must be delegated to ensure debt management remains up to date.

#### Step 1 - 0 to 30 Day Ageing Debts

- Check Rejections from Third Party payers
  - Promptly follow up on rejected claims via Integrated Payment Portals in Nookal/PMS.
- Private Clients
  - Follow up with the Private Client via phone call and email within 48 hours of the appointment if payment has still not been received, with follow-up reminders set in Nookal/PMS

#### Step 2 - 31 to 60 Day Ageing Debts

- Follow up Private Clients/Third Party Payers via phone call and email with reminders in Nookal.

#### Step 3 - 61 to 90 Day Ageing Debts

- Further follow up via phone call and email with FINAL NOTICE.

#### Step 4 - 90+ Day Ageing Debtors

- Last follow up via phone call and email with FINAL NOTICE.

#### Step 5 - Unrecoverable Debt

- If a debt becomes unrecoverable, with a high risk of non-payment, follow the Doubtful Debt Write-Off Procedure below.

### 4. Nookal/PMS Ageing Debts Report

Generate an Ageing Debts Report from the "Reports" tab by selecting "Ageing Debts".

#### Filters and Options (Nookal)

| Filters                                                | Description                                                                                                                                                                               |
|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Date*</b>                                           | Filters based on items invoiced date - regardless of the invoice date.<br>*We <b>highly recommend</b> keeping the date range as "10 Years" to generate accurate and current debtors data. |
| <b>Location</b>                                        | Invoice location - regardless of the payment location. This is useful when you have multiple sites and you're able to split the report to focus on one location.                          |
| <b>Providers</b>                                       | Select a specific Provider to easily find unpaid items attributed to this Provider OR select all Providers for full report.                                                               |
| <b>Filters v Show Expanded</b>                         | <b>Tick Show Expanded</b> so that each invoice will be shown in a separate row for easy access to the invoice by clicking on invoice number.                                              |
| <b>Payers</b>                                          | Select specific Payers to generate debt amount for that Payer or select all Payers for full report.                                                                                       |
| <b>Sort</b>                                            | Sort the list by Clients or Type to group Invoices by Client or Type.                                                                                                                     |
| <b>Services / Classes / Inventory / Passes / Other</b> | Include all Services, Classes, Inventory, Passes and Other items to ensure all are captured in the Ageing Debtors Report.                                                                 |

#### Tips and Tricks

- Expanded details filter offers a report itemised by each invoice rather than grouping either by type or client.
- Export report to a XLSX file so that you can reference the information on the spreadsheet whilst working through debtors within Nookal as well as make notes on the spreadsheet to track actions with debtors.
- Note: XLSX file has 2 tabs of information – Parameters and Details. CSV files do not save information that you have added after export. If you export as CSV then save as XLSX file before editing data.

- In Nookal, click on the invoice reference, this will bring up the invoice where you can either process the invoice, check the online portal for remittance or rejection or email the invoice again for follow-up.

## 5. Nookal HICAPS Report

The HICAPS Report lists invoices submitted for automated payment via HICAPS Digital Claims Integration. It will show you claim statuses and error responses, including rejected claims.

Generate this report to reconcile submissions sent through the integration and to evaluate recurring issues and error messages to rectify rejected claims.

### Filters and Options

| Filters         | Description                                                                                       |
|-----------------|---------------------------------------------------------------------------------------------------|
| <b>Date</b>     | Date of the last transmission with HICAPS Digital Claims (Claim submitted, approved or rejected). |
| <b>Statuses</b> | Claim statuses to include in the Report.                                                          |

## 6. Ageing Debts Process

Run an Ageing Debts Report.

### Step 1 - 0 to 30 Day Ageing Debtors

#### Check Rejections of Third-Party payers.

- It is important to check for any rejected claims in a timely manner so a claim can be re-submitted or any issues addressed for the invoice to be paid. In some cases, a rejected claim may fall to the client for payment. It is important that we avoid multiple unpaid services accumulating for the same client, as this can result in larger, unrecoverable debt if left unaddressed.

You can check for rejections either via the online payment portal websites, online claiming reports in Nookal such as the HICAPS Report or via the Ageing Debts Report.

- Resubmit claims via Nookal by either processing again through HICAPS Digital / Tyro integrations, or email

#### Private Clients

- If a client is unable to finalise payment at reception before leaving, print the invoice and also email it via Nookal.
- Offer the client a choice of payment options:
  1. **Bank transfer** - using the bank details printed on the invoice, which they can action in the waiting area before leaving
  2. **Phone payment** - calling the clinic to arrange payment
  3. **In-person** - returning to the clinic within the coming days to settle the invoice
- If payment is still outstanding when the client leaves, place an "OUTSTANDING DEBT" alert note on their profile. This flags the account to other admin team members, particularly if the client later calls to cancel their next appointment.
- Follow up by phone, SMS, and email within 48 hours of the appointment if payment remains unpaid, with reminders set in Nookal. Follow-up should happen *before* the next appointment - waiting until then risks the client cancelling or refusing to pay once the debt has grown. See below 0-30 day follow-up email template

### Step 2 - 31 to 60 Days Ageing Debtors

#### Private Ageing Debtors

- Follow-up with a call to the client or entity to discuss payment and take payment over the phone
- Send payment follow-up and invoice via email or SMS
- Add Private Note on invoice with follow-up actions
- Place ALERT note on client file "OUTSTANDING DEBT"

### Third Party Ageing Debtors

- Review claim details and digital payment platforms or Third Party portals to check status and follow-up.
- Call Third Party Payer to ensure invoice has been received and determine payment timeframe
- Send follow-up via email with invoice to Third Party Payer asking for payment or remittance
- Add Private Note on invoice with follow-up actions

### Step 3 - 61 to 90 Days Ageing Debtors

#### Private Ageing Debtors

- Follow-up with a call to the client to discuss payment and take payment over the phone
- Send final payment follow-up and invoice via email or SMS
- Add Private Note on invoice with follow-up actions
- Ensure an ALERT note is on the clients file "OUTSTANDING DEBT"

#### Third Party Ageing Debtors

- Review claim details and digital payment platforms or Third Party portals to check status and follow-up
- Call Third Party to ensure invoice has been received and determine payment timeframe. Ask whether there is any reason for the delay and whether anything further is required. If nothing is outstanding from the clinic then flag with the payer that the client's treatment may be delayed affecting outcomes for the client due to invoices being outstanding.
- Send follow-up via email with invoice to Third Party Payer asking for payment or remittance
- Add Private Note on invoice with follow-up actions
- Place ALERT note on client file "OUTSTANDING THIRD PARTY DEBT"

### Step 4 - 90+ Days Ageing Debtors

#### Private and Third Party Ageing Debtors

- Determine if debt is recoverable or not. If recoverable, follow above steps in step 3
- If unrecoverable, determine next actions with Clinic Partner and Regional Partner in step 5.

### Step 5 - Unrecoverable Debt

If Debtor has become unrecoverable, then follow Doubtful Debt Write Off Procedure (below).

## 7. E-mail Templates - Aged Debts Process

#### Reminder (0-30 Days):

**Subject:** Reminder - Outstanding Invoice

Dear [Patient's Name],

Our records indicate that the attached invoice remains outstanding and is now overdue.

Payment can be made:

- In person by visiting the clinic
- Via debt or credit card over the phone, or
- Via bank transfer to the bank account detailed on the invoice (please use invoice number as a reference)

If you are unable to make full payment at this time, please contact the clinic to discuss an alternative payment arrangement.

If the attached invoice has already been paid, or you believe it is incorrect, please contact the clinic or email confirmation of the payment details so we can allocate it against the invoice.

Thank you for your attention to this matter.

Kind regards,

[Clinic Name]

**Further Reminder (30-60 Days):**

**Subject:** Reminder - Outstanding Invoice

Dear [Patient's Name],

Further to our previous correspondence, the attached invoice remains outstanding and is now further overdue.

We ask that you attend to payment as a matter of priority. Payment can be made:

- In person, by visiting the clinic
- By debit or credit card, over the phone
- By bank transfer to the account details listed on the invoice (please use the invoice number as a reference)

If you are unable to make full payment at this time, please contact the clinic promptly to discuss an alternative payment arrangement.

If the attached invoice has already been paid, or you believe it is incorrect, please contact the clinic or email confirmation of the payment details so we can allocate it against the invoice.

Please contact the clinic as soon as possible to resolve this matter.

Kind regards,

[Clinic Name]

**Final Notice Reminder (61-90 and 90+ Days):**

**Subject:** Final Notice - Outstanding Invoice

Dear [Patient's Name], **FINAL NOTICE – OUTSTANDING INVOICE**

Despite previous correspondence, the attached invoice remains unpaid and is now significantly overdue.

Please arrange payment immediately. Payment can be made:

- In person, by visiting the clinic
- By debit or credit card, over the phone
- By bank transfer to the account details listed on the invoice (please use the invoice number as a reference)

If you are unable to make full payment, please contact the clinic without delay to discuss an alternative payment arrangement.

If payment or contact is not received within [X days] of this notice, we may refer this matter to a debt collection agency.

If the attached invoice has already been paid, or you believe it is incorrect, please contact the clinic or email confirmation of the payment details so we can allocate it against the invoice.

Please contact the clinic as soon as possible to resolve this matter and avoid further action.

Kind regards,

[Clinic Name]

## 8. Doubtful Debt Write Off Procedure

Healthia has a standard operating procedure to write off Doubtful Debtors after multiple attempts to recover outstanding debt. The Doubtful Debtors Write Off Procedure helps ensure that Doubtful Debtors are dealt with in a timely manner and so that the accuracy of overall debt at clinic level reflects true recoverable debt. The overall objective for all Healthia clinics is to have minimal Doubtful Debtors.

### Roles and Responsibilities

#### Trained Admin Support Team and/or Practice Manager

- Report Doubtful Debtors that are deemed unrecoverable to Clinic Partner(s) or Team Leaders and Regional Partners on a monthly basis to determine next actions
- Approval will need to be obtained from all Partners before any write off can be processed

#### Clinic Partner(s) or Team Leaders and Regional Partners

- Responsibility for invoicing, accounts receivable and debt management lies at the clinic level with the Practice Manager and Clinic Partner(s) or Team Leader. Accounts receivable and Debtor management is a key performance indicator for each clinic.
- Determining and reporting a Doubtful Debt, along with any subsequent action to write it off, will impact the current reporting period — including the P&L, EBITDA, and resulting dividends
- Approval will be required by all Partners before Doubtful Debt Write Off procedure can be processed in Nookal/PMS.

#### Criteria

- Debtor invoice(s) overdue by more than 90–120 days, where the debtor is unresponsive despite repeated recovery efforts.
- Debt is unlikely to be recovered through a debt collection agency (where one is currently engaged).
- A Third Party Payer has determined the invoice does not meet the requirements of the claim or service agreement, and payment will not be accepted.
- The clinic must be profitable for the debt to be eligible for Doubtful Debt Write-Off.

#### Timeline

- On a monthly cycle, generate the Ageing Debts Report to identify debts assessed as non-recoverable.

#### Process

##### Step 1 - Generate Ageing Debts Report / Identify Doubtful Debtors

- Generate an Ageing Debts Report and identify Doubtful Debtors in 90+ Day Column.
- Save identified Doubtful Debtors “*Doubtful Debtors – COST CODE - MONTH*” in XLSX file type.  
Eg *Doubtful Debtors – 1000 – MAY.xlsx*

##### Step 2 - Approval

- Send file to Clinic Partner/Team Leader for review and approval.
- Once approved by the Clinic Partner/Team Leader, forward the file to the Regional Partner for review and approval.
- Approval authority is then determined by the total value of Doubtful Debtors:
  - **Under \$1,000** – Regional Partner approval required
  - **\$1,000–\$5,000** – General Manager approval required
  - **Over \$5,000** – CFO approval required

##### Step 3 - Write Off in Nookal

- Once approval is obtained by Regional Partner and/or General Manager then clinic can proceed to complete write-off.
- Per Invoice: Open Invoice => Click on item => Click on Payment => Click on Pay for Item => Enter debt amount into BAD DEBT WRITE OFF payment field => Click Add Payment

**Payment**

## 9. Nookal Invoice Adjustment Parameters

### Lock Period = One Business Day

- After One Business Day, adjustments will be possible however backdating and voiding will not.
- Invoices from Friday, Saturday and Sunday will not be able to be backdated or voided after 11:59pm on Monday night.

### After One Business Day

- Able to change PAYER, CASE and ADDRESSEE. The Payer, Case and Addressee will be changeable as these won't change revenue figures.
- Able to change CODE and EDIT Description. The Code and Description will be able to be changed as this won't change revenue figures.
- Able to change TOTAL. The line-item total (price) will be able to be changed but not backdated.
- Able to change Payment METHOD. The payment method will be able to be changed but not backdated.
- Unable to ADD services, classes and late items. This would increase the clinic and clinician revenue for a prior revenue period
- Unable to VOID Invoice. This would decrease the clinic and clinician revenue for a prior revenue period.
- Unable to BACKDATE Invoice and Changes. This would change the clinic and clinician revenue for a prior revenue period.

- Unable to Change Provider. This would change the clinician's revenue for a prior revenue period altering provider activity reports.

## 10. Nookal Invoice Adjustments

### Able to change PAYER, CASE and ADDRESSEE

- The Payer, Case and Addressee will be changeable as these won't change revenue figures.
- Click on the Payer or Case Name or Addressee (click on the text, don't click on the little pencil), a pop-up box will appear so that you can change what is required.

[Change Method](#)

- A pop-up box will appear so that you can select the correct payment method.

Please select your payment method:

## 11. Further Assistance

- If an adjustment is required and cannot be made with the above, then a Ticket will need to be submitted via ASSIST (Category => Operations => Nookal: Invoice Amendments).
- Please include the Invoice Number and details of the change required.
- If revenue is being backdated outside the current revenue period, Finance will need to review the ticket to ensure clinic and clinician billing incentives are calculated correctly
